

# HOW TO M(OP)

1

## GET READY TO HOST

Ready to have a Museum at (Our Place) at **your** place?!

Chat with your neighbors to see who can participate. Some folks will want to post a sign, some can help with learning experiences, some can chip in to buy the kit - it's wonderful what's possible when we work together.

Depending on what your community can support, the cost of the kits is:

**\$150**

Covers the cost of printing

**\$300**

Cover your kit and pay one forward to a community in need

{Just \$30 each w/ 10 neighbors!}

**FREE**

Everyone deserves access to learning and art!

2

## SET UP YOUR MUSEUM

Find a location for the ten signs where your community can pass by and see them. Green spaces, walkways, a series of windows - there are lots of ways to do it! Make sure that the signs are spaced out for safe 6' distance between viewers, and don't block any pathways.

Let people know about your museum by sharing on social media. Use the social media tools or do your own thing!

**#fiveoaksmuseum #museumatourplace**

3

## USE, ENJOY, LEARN!

Share your Stay Learning Guide with everyone! It can be emailed or printed and passed around. Try walking through the museum while listening to the music playlist; follow the Look/ Imagine/ Wonder way of seeing art; scan the links on each sign for way more info on the artists; learn more about Kalapuyan Peoples through the reference links; download the free video game...

And SO much more!!

**There's a whole museum of fun and learning - at your place!**
